Education

B.E in CSE	JSS Science And technology University	2021-2025	8.78 (CGPA)
Pre-University	Vidyaniketan PU Science College, Hubballi	2019-2021	90.16 % (PCMB)
10th	St Joseph's High School, Dharwad	2019	88.64 %

Projects

➤ Axonec | [GitHub](#) | [Visit](#)

Tech Stack: Next.js, Tailwind CSS, JavaScript, Supabase, Shadcn

Axonec is a platform that provides users with personalized project ideas based on their test scores, which are collected through the website. It is fully responsive, ensuring a seamless experience across all devices, and allows users to securely manage their data.

➤ FlavourVault | [GitHub](#)

Tech Stack: Next.js, TypeScript, Tailwind CSS, MongoDB, Aceternity UI, Shadcn ,

Developed a web application for converting restaurant menus into QR codes, enabling users to upload Dishes and generate QR codes that link to digital menus stored in a MongoDB database, with support for dynamic dish segmentation.

➤ File Storage and Sharing with AI Integration | [GitHub](#)

Tech Stack: React.js, Supabase, Tailwind CSS, TypeScript, Shadcn, LLM, Qdrant

Developed a file storage platform with AI integration for content analysis using LLM. Enabled secure file sharing with Supabase authentication and an intuitive interface.

➤ Budget Planner Mobile Application | [GitHub](#)

Tech Stack: React Native, Expo, Tailwind CSS, Supabase

Built a mobile app to help users track expenses and visualize spending habits. Designed with an attractive interface using Tailwind CSS and React Native for smooth user experience.

➤ IPL Win Prediction using Machine Learning | [GitHub](#)

Tech Stack: Numpy, Pandas, Random Forest, Streamlit

Developed a machine learning model using Random Forest to predict IPL match outcomes. Provided a user-friendly interface using Streamlit for interactive predictions.

Skills

- **Programming Languages:** C, Java, JavaScript
- **Full Stack Web Development:** HTML5, CSS3, TailwindCSS, TypeScript, Next.js, ReactJS, Node.js
- **App Development:** React Native with Expo
- **BaaS:** Supabase, Firebase
- **Database Technologies:** SQL(MySQL), NoSQL(MongoDB)
- **Data Science:** Machine Learning

Interest

Current Affairs, Playing cricket, Volunteering, Surfing the internet.
